ARE YOU INJURED?

If you are injured, you should consult with a lawyer who is experienced in personal injury law to learn your rights and avoid others taking advantage of you while you are vulnerable. Our office is well versed in personal injury cases and able to answer just about any questions you may have about your situation

PERSONAL ATTENTION TO PERSONAL INJURIES

Experience gives us the ability to expect and anticipate how insurance companies, defendants and the court will view your case. Our goal is to make your case as unique to them as the problem is to you. No two people suffer the same way no matter how similar their injures may be. We will work hard to make sure that your claim isn't just another claim.

OUR APPROACH

We listen. We keep you involved in every step of the process. Every client's matter is approached differently and our efforts are tailored to suit that client's needs. That starts with listening. As a client you will not just be another file. You'll be a fresh challenge and a person who deserves the best personal service available.

BARRINGTON INJURY ATTORNEYS

PERSONAL INJURY

PREMISES LIABILITY

MOTOR VEHICLE ACCIDENTS

We do not charge a fee to anyone who seeks our advice for the initial consultation. We work on contingency so you can focus on your recovery, not on paying a lawyer.

TYPES OF CASES WE HANDLE

- **Motor Vehicle Accidents:** All types, including car accidents, truck accidents, motorcycle accidents, bicycle accidents, and pedestrian accidents

- **Premises Liability:** Cases involving slip and fall accidents and dog bites

- **Catastrophic Injuries:** Including head, brain, back, and spinal cord injuries

- **Construction Accidents:** Such as falls, burns, and equipment accidents involving the negligence of a third party

WHO WE SEEK COMPENSATION FROM

If you lose work, sustain injuries or have other losses, you may be entitled to damages from the other party to the accident. They may have insurance policies that will pay on their behalf. You may also be entitled to reimbursement under your own insurance policy if certain conditions have been met. We will work not just to get a judgement, but find the party who will actually pay.

DAMAGES

A monetary award is the only way that an injured party can be put as closely back to the position equal to the position before the injury. You may be entitled to recover money based on the nature; extent and duration of injuries for the following:

- Reasonable medical and hospital expenses resulting from injury
- Pain and suffering from injuries
- Disability, both temporary and permanent
- Loss of earnings or income
- Value of damage to property

WHAT WE ASK OF YOU

First, take care of your recovery as best you can. You should return to each of your doctors as often as necessary and should always tell them about all your complaints. You should not minimize your ailments to your doctors. If you plan to see any additional doctors, please advise us before you see them and tell us their names and addresses.

Keep accurate and detailed records of the following:

- Hospital, doctor, drug, and other medical bills
- Lost time and wages
- Receipts for other losses directly resulting from your injury
- Photos and documentation of your injuries and damage to your property
